

Community Engagement Master Plan Meetings

The Prince George's County Board of Education invites students, families and community members to attend the Community Engagement Master Plan Meeting in their planning area to share their vision for future school improvements, renovations and new construction.

Department of Capital Programs staff will present information on the current condition of school facilities and will brief the community on the new High School Educational Specification template.

Community input will be used to develop the next Educational Facilities Master Plan (EFMP) which is used to develop the annual and six-year Capital Improvement Plans (CIP).
