

## Public Workshop for the Brinkley Road Pressure Reducing and Relief Valve Vaults Project

Hosted by Washington Suburban Sanitary Commission

Thursday, February 2, 2017, 6:30pm  
Samuel Chase Elementary School  
5700 Fisher Road  
Temple Hills, Maryland 20748

### PURPOSE OF THE WORKSHOP

WSSC invites you to attend a public workshop for the Brinkley Road Pressure Reducing and Relief Valve Vaults Project No. MV5237C11. The purpose of this workshop is to inform the public about an upcoming WSSC project coming to your neighborhood.

### PROJECT BACKGROUND

The Brinkley Road Pressure Reducing and Pressure Relief Valves maintain water pressure between two different WSSC zones and protect downstream pipelines from excessive pressures. Currently, WSSC is managing a Specialty Valve Vault Program to replace a number of underground vaults and relocate them outside of the roadway. The Brinkley Road Pressure Reducing and Pressure Relief Valve Vaults are among those selected for replacement under this program.

WSSC invites affected residents to attend this workshop to gain information about the upcoming construction activities. Residents will also have an opportunity to ask questions and express any concerns about the project.

Information about current and future WSSC projects can be found online at  
<https://gis.wsscwater.com/inyourneighborhood/>.

If you have any questions, I can be reached at (301)-206-8382 and at [amado.carsky@wsscwater.com](mailto:amado.carsky@wsscwater.com)

Sincerely,

A handwritten signature in blue ink that reads "Amado Carsky".
